

## How DAS helps overcome the most common digital adoption challenges

### CHALLENGE

### SOLUTION

**Assume that people learn the same way**

**DAS** comes at learning from every possible angle - with real-time content, videos and tutorials constantly available.

**One official language for your company**

Thanks to “multi-lingual translation” by the **DAS** Language Localizer, at the push of a button, screens are automatically translated.

**Sharing knowledge accros the organization**

**DAS** enables collaborative learning through simple in-built tools. Sticky notes, online chat, video calls, and screen sharing help users help each other, acceleratiing learning.

**Hidden costs killing the business**

**DAS** is a true plug-and-play offering, integrating effortlessly with any Cloud or on-premise enterprise software. You can tailor the solution to your business needs, only paying for the features you choose to deploy.

**Insufficient IT resources for users support**

With **DAS**, users can quickly build ther own guiders, linking seamlessly together into step-by-step tutorials. Personalized notifications flag up issues, guiding users to solutions.
